

Claims

[c1] My invention claims:

A waterproof scrubbing glove comprising:

- A flexible waterproof glove for encapsulating a human hand, having a palm portion, a plurality of cavities for the thumb and fingers, and a back portion
- Scrubbing bristles covering the entire front surface of the glove, which includes the palm portion, and the thumb and finger stalls of the glove, all in a continuous coverage and built into the glove structure
- Scrubbing bristles that cover the sides of the palm and built into the glove structure
- Scrubbing bristles that cover the tips of all of the said stalls and built into the glove structure
- Scrubbing bristles that cover the sides of all of the said stalls and built into the glove structure

[c2] [Claim Reference to claim 1]The waterproof scrubbing glove of claim 1, wherein said waterproof glove is composed of at least one of either rubber, leather, plastics, nylon, and other materials. Note: Plastics include polyethylene, polypropylene, polyvinyl chloride, polyamide, and polyester.

[Claim Reference to claim 1]The waterproof scrubbing glove of claim 1, wherein said bristles is composed of at least one of either nylon, synthetic fiber, steel, plastics and other materials. Note: Plastics include polyethylene, polypropylene, polyvinyl chloride, polyamide, polyester, polyacrylonitrile, and co polyacrylonitrile.

[Claim Reference to claim 1]The waterproof scrubbing glove of claim 1, wherein said bristles are between the lengths of 0.1 to 20mm, preferably 1 to 10mm.
